Custom playlist

- By default, when you have an unlimited subscription, your devices are linked to an automatic playlist managed by Kylii Kids. The advantage of this playlist is that it evolves over time, autonomously, being regularly updated with the new games developed by Kylii Kids.

- If you modify your playlist *(by removing a game for example),* then you switch to a custom playlist : a popup is displayed to inform you. To have the new game, you'll need to go to the tab "Your games" to install them manually.
